DURALACTIN® CANINE & FELINE LIQUID

V.P.L.

For Long Term Management of Chronic Inflammatory Conditions in Dogs and Cats

Product Facts

Active Ingredients per teaspoon (5 ml):

MicroLactin® (dried milk protein)	200 mg
Omega 6 Fatty Acids	198 mg
Omega 3 Fatty Acids	90 mg

Inactive Ingredients

butylated hydroxyanisole (BHA), glycerin, guar gum, poultry digest, sorbic acid, sucrose, water.

Cautions:

If animal's condition worsens or does not improve, stop product administration and consult your veterinarian. Some cats may be sensitive to milk proteins and/or carbohydrates. Should vomiting or diarrhea occur, please discontinue use and consult your veterinarian.

Recommended for long term management of chronic inflammatory conditions.

DURALACTIN® Canine and Feline Liquid contains MicroLactin®, a patented dried milk protein concentrate derived from hyperimmunized cows that contains factors that appear to block cytokines and inhibit neutrophil participation in the inflammatory response.*

DURALACTIN® Canine and Feline Liquid does not share in the mechanism of action of any known drug and is not a cyclooxygenase (COX-1 or COX-2) inhibitor.

*Data on file
