## ETIDERM® SHAMPOO

Virbac

Antiseptic Shampoo

**Active Ingredient(s):** Contains: Chitosanide, ethyl lactate 10%, benzalkonium chloride, lactic acid and propylene glycol in a shampoo base also containing TEA lauryl sulfate, water, diethanolamine, benzyl alcohol, fragrance, hydroxypropyl cellulose, methyl paraben, and propyl paraben. Chitosanide and ethyl lactate are present in encapsulated (Spherulites®) and free forms. Benzalkonium chloride is present in encapsulated form.

**Indications:** ETIDERM® is a gentle, antiseptic and keratoplastic shampoo for use in dogs and cats of any age.

**Directions:** Shake well before use. Wet the coat with warm water and apply sufficient shampoo to create a rich lather. Massage ETIDERM® into wet coat, lather freely. Rinse and repeat. Allow to remain on hair for 5 to 10 minutes, then rinse thoroughly with clean water.

Frequency of use: Initially two to three times a week for four weeks, then reducing to once a week, or as directed by your veterinarian.

**Caution(s):** For topical use only. Avoid contact with eyes. In case of contact, flush eyes with water and seek medical attention if irritation persists.

Available through licensed veterinarians only.

**Warning(s):** Keep out of reach of children.

**Discussion:** ETIDERM® contains Spherulites®, an exclusive and patented encapsulation system developed by Virbac to provide slow release of ingredients long after the shampoo is rinsed off.

ETIDERM® also contains Chitosanide, a natural biopolymer creating a protective film on the skin and hair.

**Presentation:** Available in 8 oz, 16 oz, and 1 gallon containers.

**NAC No.:** 10230290
