RENAKARE™ TABLETS

Neogen

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Each tablet contains a minimum:

Potassium Gluconate	2 mEq (468 mg)
---------------------	----------------

Dosage:

The suggested dosage of RenaKare for adult cats and dogs is one (1) tablet per 10 lb (4.5 kg) body weight twice daily. Dosage may be adjusted to satisfy patient's need.

Store tightly closed container in a dry place at temperatures not exceeding 35°C (95°F).

Indications:

For use as a supplement in potassium deficient states in cats and dogs.

Warning:

Do not administer in diseases where high potassium levels may be encountered, such as severe renal insufficiency or adrenal insufficiency.

Precaution:

Use with caution in the presence of cardiac disease, particularly in digitalized patients or in the presence of renal disease.

FOR ANIMAL USE ONLY

KEEP OUT OF REACH OF CHILDREN
